LESLIE GUSERWA ANGU

Data Engineer | Telemetry, Metrics & Dashboard Analytics
Nairobi, Kenya · anguleslie7@gmail.com · +254 707 700 995 · github.com/leslie-eng · linkedin.com/in/leslie-angu-00aa86341

PROFESSIONAL SUMMARY

Data engineer with 3 years of experience designing and maintaining SQL-driven ELT/ETL pipelines, operational dashboards, and cloud data infrastructure. Skilled in SQL optimization (joins, CTEs, window functions), Power BI dashboarding, and automated reporting, applying software engineering best practices to deliver clean, governed, well-documented datasets. Experienced analyzing telemetry from embedded hardware and sensor systems for root-cause findings. Founder of Kinetic Kraft Robotics.

TECHNICAL SKILLS

Query Languages & Telemetry: SQL (joins, CTEs, window functions, optimization), KQL transferability, large-scale extraction, root-cause analysis
Data Engineering & ELT/ETL: Pipeline design, multi-source extraction/transformation, validation & quality checks, metric ownership
Data Modeling & Warehousing: Kimball dimensional modeling, star schema, lakehouse layers (raw/clean/curated), governance
Cloud & Platforms: AWS (S3, Glue, Redshift), Google BigQuery, Azure Data Factory, PySpark, Apache Airflow, Apache Kafka
Dashboards & Reporting: Power BI, Tableau, Matplotlib, Seaborn, Plotly, automated reporting pipelines
Device Telemetry & Embedded: ESP32/Arduino telemetry capture, Firebase logging, C/C++, sensor integration
Programming: Python (Pandas, NumPy, Scikit-learn, SciPy, Statsmodels), Bash, C, C++, JavaScript, Git, Jupyter

PROFESSIONAL EXPERIENCE

Data Scientist (Data Engineering Focus) Jan 2024 - Present
Afrineuron — Nairobi, Kenya

Designed, built, and maintained ELT/ETL pipelines in Python (Pandas, NumPy) turning multi-source raw data (files, SQL, NoSQL, APIs) into analysis-ready datasets, improving downstream reliability by ~30%.

Applied Kimball-style dimensional modeling to structure datasets feeding BI dashboards, improving report reliability.

Built and managed a centralized data repository on AWS S3, Glue, and Redshift alongside BigQuery, cutting manual preparation time by ~25%.

Monitored pipelines for performance, availability, and quality; contributed to governance and MLOps workflows including drift detection.

Documented data architecture, logic, and dependencies; presented findings to non-technical audiences.

Data Analyst / Data Scientist Jun 2022 - Dec 2023
Almasi Bottlers — Nairobi, Kenya

Optimized SQL queries across relational databases, cutting query run times by up to 35%.

Built automated, ELT-driven Power BI and Tableau dashboards that let non-technical operational and sales teams self-serve KPIs.

Designed and maintained pipelines feeding forecasting and classification models with rigorous EDA, feature engineering, and validation.

Maintained data integrity above 99% through systematic cleansing and validation workflows.

Junior Data Scientist Oct 2021 - May 2022
Lectrotel Microsystems — Nairobi, Kenya

Built structured datasets from raw ESP32/Arduino/Firebase telemetry, applying ETL best practices to identify device-level failure and performance patterns.

Automated data collection and processing workflows in Python, reducing manual preparation time and improving reproducibility by ~40%.

Performed EDA on engineering and operational telemetry and built SQL-based visualization and reporting layers.

KEY PROJECTS

Retail Store Data Warehouse (Medallion Architecture) — MinIO !' PostgreSQL batch pipeline, Bronze !' Silver !' Gold, orchestrated with Apache Airflow 3. github.com/leslie-eng/medallion-arch-pipeline
Streaming ETL Pipeline (API !' Kafka !' PostgreSQL) Airflow-produced Kafka topic consumed into PostgreSQL with Grafana observability. github.com/leslie-eng/ETL_001
Accident Severity Prediction Model — End-to-end pipeline: preprocessing, EDA, feature engineering, training, evaluation. github.com/leslie-eng/Accident-prediction-using-decision-tree-classifier

EDUCATION

BSc Electrical & Electronic Engineering — Technical University of Mombasa
Applied Data Science Lab — WorldQuant University (Credly-verified)

Machine Learning Specialisation — Stanford University via Coursera

CERTIFICATIONS

Certified Data Analyst — LuxDev Academy
Certified Data Engineer — LuxDev Academy (expected)
AWS Data Engineering Certification (in progress)

LANGUAGES

English (fluent), Swahili (fluent)
